VISION

To be a world-class zipper enterprise.

MISSION

Make our dreams come true by enriching customers' value.

VALUES

People-oriented, virtue first, honesty to win, and achieving a win-win situation.

THE STRENGTH OF HSD

THE FIRST ZIPPER MANUFACTURER TO
ESTABLISH A FACTORY IN CAMBODIA.

TOP **3** LEADING ZIPPER BRANDS
IN CHINA

3 MAJOR MANUFACTURING BASES

HSD boasts three core manufacturing facilities, strategically situated in Zhejiang Province, China, Kampong Speu Province, Cambodia, and Tay Ninh Province, Vietnam. This geographic dispersion enables us to efficiently serve the global epicenters of textile production, exemplifying our exceptional manufacturing productivity and supply chain prowess.

INTEGRATED MANUFACTURING AND QUALITY CONTROL PROCESS

HSD is a large-scale manufacturing center that integrates a series of processes and tests, including coil, plastic and metal zipper's tape weaving, forming, sewing, dyeing, molding, die-casting, enamel, electroplating and button production, among others. It stands as a large-scale manufacturing hub equipped with a fully integrated production, manufacturing, and quality control workflow.

OVER 40 MARKETING AND SERVICE OUTLETS

HSD has established an extensive network of over 40 offices across Asia, the Americas, and Europe, achieving full coverage of all major global regions. This enables us to provide proximate, specialized services tailored to the needs of our international brand clients.

ZHEJIANG JIASHAN SMART FACTORY

THE SPECIFIC LARGE-SCALE ZIPPER
ACCESSORY MANUFACTURING CENTER IN
CHINA THAT INTEGRATES PROCESSES
SUCH AS ELECTROPLATING AND WATER
REPELLENT FILM APPLICATION.

In 2017, HSD expanded the production scale of its enterprise intelligently and established Zhejiang HSD Zipper Technology Co., Ltd. The company's park area is situated in Yaozhuang Town, Jiashan County, covering a total area with the building occupying approximately 80,000 square meters and having a total investment of over USD 80 million. It is a large-scale manufacturing center integrating a series of processes and tests such as coil, plastic and metal zipper's tape weaving, forming, sewing, dyeing, molding, die-casting, enamel, electroplating and button production, etc.

BRANCH FACTORY INTRODUCTION

HSD CAMBODIA FACTORY

THE FIRST ZIPPER ENTERPRISE OF CHINA SET UP OVERSEAS.

HSD expanded its production scale in 2014, and set up the first overseas zipper factory of China in Cambodia, which is located in Kampong Speu approximately 40 kilometers from Cambodia's capital, Phnom Penh. The total investment is more than US\$30 million. We are able to offer our customers shorter lead time with more convenient service to meet the requirements of the international market. The factory was put into operation in September, 2014.

FASHION TREND

HSD focuses on the development of products such as men's wear, women's wear, children's wear, sportswear, casual wear, footwear, handbags, as well as home furnishings, car covers, tents, and luggage. These products are designed to be stylish, highly functional, and environmentally friendly.

HSD combines these elements to create products that emphasize fashion, functionality, design, and environmental sustainability. We have a dedicated R&D team committed to driving creative and innovative zipper designs. Through research and innovative design, we enhance product competitiveness and strengthen the brand's intangible value by developing new products.

In addition to having a high-standard production and manufacturing system, HSD is also deeply aware of corporate social responsibility and environmental protection obligations. We have introduced four major green engineering equipment projects:

Solar Energy Equipment

Investing in solar equipment can save 900,000kWh of electricity annually and reduce carbon dioxide emissions by 897,300kg.

Environmental Air Conditioner

The introduction of eco-friendly air conditioners, which use a recirculating cooling mode instead of traditional refrigeration cooling, effectively saves energy and reduces electricity consumption.

*Please inquire with the business for the extraction code.

Wastewater Treatment System

The introduction of international standard wastewater treatment and recycling systems enables efficient wastewater processing.

Waste gas treatment system

The introduction of international standard exhaust gas treatment systems achieves an average removal rate of 87% for exhaust gases.
